1. Log in as an administrator
2. Close all open software programs
3. Double click on Nuance's Setup.exe
4. Follow the installer's instructions

Nuance Version 3.0.2
New Features:
- Install Nuance to PerkinElmer (ticket:873)
- Replace Caliper Life Sciences with PerkinElmer in the quick start guide (ticket:876)
- Replace Caliper Life Sciences with PerkinElmer in the manual (ticket:877)
- Update the splash screen (ticket:875)

Resolved Issues:
- Update the manual compute spectra algorithm (ticket:874)
- Have Nuance work with MetaMorph (ticket:878)

Known Issues:
- See 3.0.1.2 Know Issues

Nuance Version 3.0.1.2
New Features:
- None

Resolved Issues:
- The updated driver package was re-signed for Windows 7 64-bit compliance

Known Issues:
- Windows 7 only: Administrator privileges are required for running Nuance. When starting the software or opening files via Windows Explorer, Windows 7 will show a warning message stating that the Nuance software needs to access your hard drive. This is normal and will not cause problems.
- When connecting the hardware, administrator privileges are required to install the hardware drivers.

Documentation:
- Complete documentation is accessible by selecting Help→Help within the Nuance software

- The User Manual is also available in .pdf format by selecting Help→View User Manual within the Nuance software or by accessing the Start menu (Caliper Life Sciences→Nuance→User Manual)
- The quick start guide is available in .pdf format by selecting Help→View Quick Start Guide within the Nuance software or by accessing the Start menu (Caliper Life Sciences→Nuance→Quick Start Guide)
